Profile

Self-taught Frontend Developer with 2 years of experience building responsive and user-friendly web applications in a fast-paced startup environment. Proficient in **JavaScript** and **Vue.js**, with a strong focus on writing clean, maintainable code. I am passionate about solving complex problems, continuously improving my skills, and eager to contribute to a forward-thinking development team. 👉 Please check canboztepe.com ⬈ for more information.

Professional Experience

08/2020 – 11/2022 Turkey	**Junior Frontend Developer** *Opsis Optimizasyon ve Planlama Sistemleri* Contributed as part of a small developer team at a startup, working closely with a Senior Fullstack Developer. • Developed production ready Vue components, ensuring cross-browser compatibility and mobile-friendly design. • Developed interactive user interfaces using the Buefy component library. • Designed and developed the entire frontend of a travel management application using Vue.js, enabling employees to book, manage, and track travel requests seamlessly.
06/2020 – 08/2020 Turkey	**Intern Frontend Developer** *Opsis Optimizasyon ve Planlama Sistemleri* I completed a 3-month internship focused on front-end web development, primarily utilizing Vue. Throughout the internship, I collaborated closely with a senior developer to build responsive user interfaces, troubleshoot bugs, and optimize application performance.
